

Expression of Interest: Facilitation of Quality Rights Training of Trainers in Nepal

CBM Global is an international development organisation committed to improving the quality of life of people with disabilities by supporting government service systems, promoting disability inclusion, and reinforcing the rights in light of UNCRPD, country laws, and policies. People with psychosocial disabilities are one of under representative disability groups, have historically, and continue to be subject to exclusion, deprivation, and often significant human rights abuses. They have not been considered enough to have a voice in matters that affect them, and the services and support they deserve are often far worse in quality, including health and recovery approaches.

The World Health Organization (WHO)'s QualityRights (QR) initiative has developed a comprehensive package to build capacity among mental health practitioners, people with psychosocial, intellectual and cognitive disabilities, people using mental health services, families, care partners and other supporters, nongovernmental organisations, organisations of persons with disabilities and others on how to implement a human rights and recovery approach in the area of mental health in line with the UN Convention on the Rights of Persons with Disabilities and other international human rights standards.

CBM Global Nepal has taken the initiative organising four days of training of trainers (ToT) on Quality Rights for the relevant professionals such as Project Partner staff, Academia, members of the Organization of People with Disabilities (OPD), members of National Human Rights Commission, policy makers of Government Health System, Mental Health professionals, Disability Advocates, etc. involved either in services and or movements linked to psychosocial disability in Nepal.

The training will help to develop a pool of professionals, who can later on, either provide training to the service providers and project staff on QualityRights in Nepal, may contribute to national or local level policy implementation, raise awareness among cross OPDs on the rights of the people with psychosocial disabilities involved in the project areas and beyond, and reinforce person centered human rights-based recovery approach throughout the health and other Government systems.

CBM is looking for a consultant to:

1. Facilitate four days face to face QualityRights ToT in English and/or Nepali in Kathmandu, Nepal.
2. To submit a final report on the change in knowledge and attitudes of the training participants following the training.
3. Develop training materials, tools, and handouts used in the training.

The selection criteria for the consultancy work are as follows:

- Proven expertise in UNCRPD, WHO QualityRights, and Mental Health.
- Strong international and inclusive training facilitation skills
- Knowledge about south Asian context particularly on mental health and disability rights movement, preferably Nepalese contexts.
- At least one similar training facilitation experience at ToT level.
- Experience in applying/working on QualityRights Assessment Toolkit.

Please refer to the detailed TOR on the website of <https://cbm-global.org/about-us/work-with-us> for this assignment and submit your expression of interest containing your CV, and a brief technical and financial proposal by the 26th October 2023. Please also include where you are living and where you have the right to work.

Submission should be sent to Sucelle.Deacosta@cbm-global.org, CC: victoria.stocks@cbm-global.org with the subject "EOI for Facilitation of Quality Rights Training of Trainers in Nepal".
